

# Matthew Philip Jack

MERN Stack Developer with 10+ Years of Experience

✉ matth.pj@outlook.com    ☎ +1 7853374228    📍 Indianapolis, IN – 5:13 pm local time Indiana

## Profile

### SUMMARY

Skilled and results-oriented software architect and engineer with over 5 years of solid experience working in technology architecture, design prototyping, and both waterfall and agile/scrum methodologies. Proven ability to leverage full-stack knowledge and experience to build out ideas with modern technologies and best practices. Have a deep understanding of mobile/web software application, and have the business acumen to make the projects successful.

## Education

**Undergraduate Degrees in Web Programming** May 2017 – Apr 2021

Marian university, Indianapolis, IN  
Detail-oriented web programmer with a degree from Marian University. Graduated in 2021, I am passionate about developing innovative web solutions and continuously improving my coding skills. Eager to contribute to a dynamic development team.

## Employment

**Principal Software Engineer(React, React Native, AWS)** Dec 2022 – Apr 2024

Nimbio  
Cellular Access Control with your smartphone.  
\* Led the design and development of features for the underwriter application and customer portal.  
\* Managed test flows, implemented unit tests with Jest, and integrated e2e tests with Cypress achieving 80% code coverage.  
\* Conducted design and code reviews, collaborated on system architecture decisions, and facilitated knowledge sharing within the team.  
\* Implemented Git for linting, testing, and deployment processes in the application setup.  
\* Enhanced UI design based on Figma for new homepage and checkout page.  
\* Developed 200 reusable components using Storybook to streamline development.

**Senior Full Stack Developer** Feb 2022 – Dec 2022

Apeak Tennis  
The mental performance app for tennis players.  
\* Developed, tested, and maintained applications with clean code.

## Skills

- AWS
- Bootstrap
- C#
- SCSS
- frontend
- Git
- Javascript
- MongoDB
- MySQL
- Next.js
- Node.js
- React Native
- Redux
- React
- Tailwind CSS
- Typescript
- Vue.js
- Web Scraping
- PYTHON
- Machine Learning

## Languages

English

- \* Participated in software design and code reviews to ensure highquality product delivery and skill enhancement.
- \* Mentored and led the development team to accelerate project development.
- \* Ensured the proper functionality of production API by maintaining Azure Kubernetes Services.
- \* Applied best practices for full software development life cycle, including coding standards, code review, and testing.
- \* Addressed performance bottlenecks and enhanced frontend and backend infrastructure.
- \* Shared software development best practices with the team and mentored junior engineers.

### Full Stack Developer

Jun 2021 – Jan 2022

VelloWeb

A full-service creative agency.

- \* Supervised deliverable completion based on project scope statements.
- \* Enhanced web development processes to ensure efficient, welltested code and streamlined architecture.
- \* Collaborated with cross-functional teams to develop and execute technical roadmaps for various product features.
- \* Boosted product performance and reliability through feature enhancements and optimizations.
- \* Contributed to implement back-end services and distributed systems when needed.
- \* Created responsive and accessible web front-ends with a mobilefirst mindset.
- \* Improved code quality through automation and performing code reviews.
- \* Run and monitor software performance tests on new and existing programs for the purposes of correcting errors, isolating areas for improvement, and general debugging.

## Strengths

### Problem Solving

Developed solutions for complex problems resulting in a 30% increase in efficiency

### Teamwork

Collaborated with cross-functional teams resulting successful project completion within deadline

### Attention to Detail

Implemented rigorous testing methodologies resulting in 99% bug-free code
